

EXTERIOR OUTSWING STEEL DOORS

Doors

An out-swing entrance door that gives your home a clean and classic look without compromising security and energy efficiency. With heavy-duty steel paneling and a galvanized steel frame, this door securely protects your entryway. It is completely pre-hung, ready to install. The door has a flat mounting flange.

***White painted galvanized steel mounting frame- Six Panel Design- 1 3/8" door thickness- 9-Lite Window Option available- Effective Polystyrene foam core insulation- Complies with HUD standard 3280.405.**

Sealant tape and screws are not included.

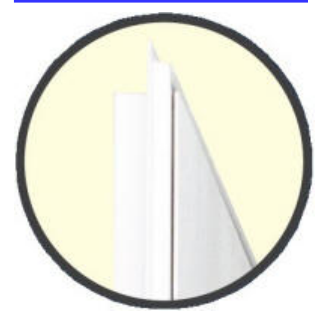

How to Identify Left or Right Hinge.
 Look at the door from the *outside* of the home. The side with the hinges determines left or right hinge.
 ◀(Hinges on the left, left-hinge door)

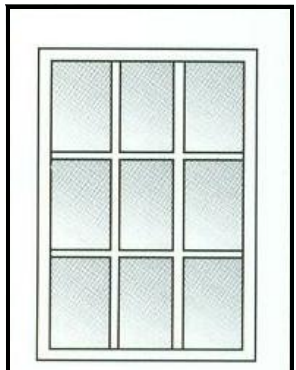

Four extruded hinges with bushings.

Fully prepped for knob/lockset and deadbolt lock.

Full perimeter compression gaskets and seals.

Window Options:
 9-Lite Window (20" x 36")
 or no window (Blank). That's it!

Note: "Call size" refers to the stud-to-stud rough opening in the wall, not the door itself! To determine call size, see page 3.

**For more options, see page 6.
 For locksets, see page 17.
 For Installation Kits see Page 14.**
