

SLIDING PATIO DOORS

Doors

**Please specify which side to place moving door as viewed from outside your home. OX means panel on left is stationary and right panel slides open- XO means panel on right is stationary and left panel slides open*

◀ 84075-V- White Vinyl Framed Sliding Patio Door with Tempered Glass- 71 1/2" x 75 1/2" (Call size 6' x 6' 4")

**Includes handle assembly and screen door.*

Attractive low profile multi-chambered frame increases viewing area and improves thermal and sound insulating value. Standard frame for use with all wall/siding types or lap frame with integral siding pocket that eliminates the need for additional siding trim pieces. Heat fusion welded frame and moving panel provides superior structural strength and prevents potential leakage at the corners. Staggered internal weep system allows minimum dust infiltration- snap-in weep covers are standard. Exterior glazing design improves resistance to wind and water. 1/4" sealed insulating tempered glass with "Intercept" spacer and optional Low-E provides optimum thermal performance. High quality fin seal weather-strip around moving panel perimeter insures a positive seal against wind and water. Fully adjustable factory lubricated steel tandem rollers mounted with ball bearing insures trouble free operation. Snap-in moving panel track with stainless steel roller guide cover designed to withstand heavy use and easy to replace. Color coordinated attractive mortise type keyed lock mounted on steel reinforced lock jamb for strength and sturdiness that provides added security- lock keeper is adjustable. Easy to reverse the door from XO to OX or OX to XO- reversing must be done prior to installation. Anti-lift design feature requires moving panel to be in fully open position before panel can be removed for added security. Heavy duty rolling screen door with adjustable roller- snap-in screen track in frame sill is replaceable.
