

6-PANEL STEEL HOUSE-TYPE DOORS

Doors

An efficient thermal entrance system, pre-hung and ready to install, the 7660 includes a 24-gauge vinyl clad steel inner door and an energy efficient storm door. Shown here with right hinges and optional chrome knocker/viewer.

Standard Features

- *4 1/2" LVL Wood Jamb
- *White Inside and Outside Steel 6-Panel Core Door.
- *Oriel/ Self Storing White Storm Door & Black Hardware.
- *24-gauge white vinyl clad steel core.
- *Full 1 3/4" thermally broken core.
- *Rugged stainless steel lock system with adjustable strike plate. *Core is edge bored and capped for easy addition of deadbolt. *Pre-finished MDF jamb system. *Lock-side metal blind stop and integral sealing system. *Thermally broken threshold.
- *Four leaf sill sweep. *Self-storing heavy duty aluminum framed storm door with stainless steel bushings in the hinges.

How to Identify Left or Right Hinge

Look at the door from the outside of the home. The side with the hinges determines left or right hinge. (Example: hinges on the right, right-hinge door)

◀ Our steel house-type door comes standard with no window or chrome knocker/viewer installed. See page 12 for available window options.

Note on shipping and handling: Steel House-Type Doors must ship by freight unless located within local delivery route area. Costs vary depending on weight and destination. Please contact us for more information.

Lockset, putty tape, drip caps and screws sold separately. Please see following page for options. See chart below for **part numbers**.
