

STANDARD VINYL-FRAMED EXTERIOR WINDOWS

Vinyl (PVC) construction provides high thermal performance- Frame and sash corners are heat-welded and mitered for added strength and energy efficiency- Frame designed with multiple hollow areas for maximum strength and energy efficiency- Window sash can be removed for easy cleaning on any level of the home- Reinforcement bars in the meeting rails provide added strength- Cardinal's XL Edge double pane glass with LoE2-270 coating- Includes mounting flange with brick mold that gives them a finished look and also serves as J-Channel that accepts a wide variety of structural sidings.

▼ Standard Call Size Chart
The call size is the measurement (width by height) of the rough opening in the wall where your window will actually fit. **Any sizes not shown in this chart must be ordered as Deluxe Window, shown on the lower half of this page.** Please contact us for more information.
