

PACKAGED A/C UNITS AND ACCESSORIES

A packaged unit is an air conditioning system that has all of the components completely encased in one unit outside the home.

***Important note: For this item the purchaser must be either a licensed installer or provide an affidavit as proof that they will have a licensed installer on site to install the system.**

Environmentally Friendly R-410a Refrigerant- State of the Art Compressor is standard equipment - High Pressure Switches ensure long compressor life - Both indoor and outdoor all aluminum coils are designed to optimize heat transfer, minimize size and cost, and increase durability and reliability. Eliminates corrosion - ECM Blower Motor- Permanently Lubricated Condenser Motor- A heavy duty PSC motor for long lasting reliability and quiet operation. Requires no maintenance and is completely protected from rain and snow - Designed Using Galvanized Steel- With a polyester urethane coat finish. The 950 hour salt spray finish is 1.5 mil thick and resists corrosion 50% better than comparable units - Compact Footprint and Profile- Make the RPC Series easy to install and transport. Optional Electric Heat- Field installed 5-15 KW.
