

SPLIT SYSTEM A/C UNITS AND ACCESSORIES

A split system has two parts that are designed to work together- the indoor unit (furnace and a-coil) and an outdoor condensing unit or heat pump. When properly matched with a furnace or air handler, the result is maximum efficiency and extended system life.

***14 S.E.E.R. with Environmentally Friendly R410A Refrigerant.** Composite Base Pan absorbs sound and is corrosion resistant. Composite is stronger and lighter than steel. Micro-Channel Coils- All aluminum coils in all models which provide high corrosion resistance. High Pressure Switch protects against abnormally high system pressures. Auto-reset feature prevents nuisance service visits. Louvered Condenser Guard- Durable metal guard protects coil from yard hazards and extreme weather. Designed Using Galvanized Steel- With a polyester urethane coat finish. The 950 hour salt spray finish resists corrosion 50% better than comparable units. AccuCharge with FitRight fittings- Correctly charged for fast easy installations. AccuCharge™ 5 year parts/ 1 year labor* Extended service contracts available *To receive 10-years parts Limited Warranty, online registration of unit must be completed within 60 days of installation.

▲ Please be advised we can only sell Air Conditioners, A-Coils, Heat Pumps and Furnaces to residents of states in the Southeastern portion of the U.S. (blue states shown)
