

# FIBERGLASS STEPS

**Beauty-** Complementary color blends well with any mobile home exterior.

**Stability-** Most styles are completely enclosed and feature generous 12" treads with skid-resistant surface.

**Durability-** Constructed of reinforced pressure treated plywood, 2' x 4's and 2' x 2's, and completely covered with a pressure-laminated fiberglass "jacket".

**Economy-** Virtually maintenance-free. No need to worry about rusting, as with metal steps.

**Our steps are virtually indestructible, unaffected by salt and easily hosed clean.**

## ◀ The 38" Wide Side-Approach Step

Use this full back step with 38" x 38" landing for a parallel or front approach. Rails are reversible. Ideal for when a straight entry is not feasible. This step closed on back.

**01999- 24" High    02000- 28" High**

**02001- 32" High**

Pictured with Deluxe Handrails. Note: Side and back rails must be ordered separately. BOCA, OSHA, and code approved in most areas.

## ◀ 72" Twin Steps

A big approach with full 72" wide step and 29" deep platform. Each step/tread is 12" deep for added safety. For use with sliding glass and French doors. Twin railings recommended.

This step is open on the back, a haven for dogs.
